

2.00mm Pitch OTS Discrete Wire Harness Based on JST PAD WTB Connectors

JST's PAD 2.00mm series connector is a dual-row structure wire to board connector system with secure locking mechanism.

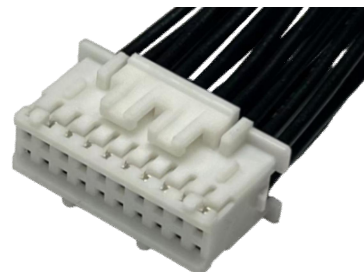

Conbeone released the Off-The-Shelf wire harness based on JST'S PAD connector. The Off-The-Shelf wire harness used 22awg UL1061 hook wire with 5 length options, can be shipped with very small MOQ and very short Lead time. Conbeone also provide the crimped lead, customer can use the crimped leads with varied lengths and colors to assembly the wire harness easily. These wire harness and crimped leads provide supper design flexibility to our customers.

OTS Cable type:

1. Crimped Lead.
2. Wire Harness assembly.
